

ESC. 1:50

- [illegible]

The diagram is a black and white schematic of a building floor plan. It features several rooms of different sizes, some with internal partitions. A central corridor or open area is filled with diagonal hatching and contains the label 'S1'. Other rooms are filled with different patterns: some are solid black, some have horizontal lines, and others have vertical lines. There are also some rooms with a cross-hatch pattern. The overall layout is complex, with multiple interconnected spaces.
