Hi Matt,

In addition, apart from thanking you for granting a special cost, I tell you that the result is \$1,440 (60x24). It is that in your email it says \$1,444. I just want to specify it because I'm going to manage the budget.

Thank you

Hi Juan,

Dear Mr Popson,

The undersigned communicates with you by email in order to request a quote (RFQ) attaching a requirement, however, through Mrs. Wendy we managed to obtain a response where a credit application was required. In this regard, I send you the credit application duly filled out in order to obtain a quote (RFQ) from you.

In order to comply with the payment, at OSIPTEL, a purchase order needs to be issued. It is a mandatory process for OSIPTEL based on the contracting regulations in Peru, which is why it is important and necessary to be able to quote (RFQ).

In this sense, I remain of your kind communication, with whom you sign the email, regarding sending the quotation (RFQ) for the application of 60 tests (16PF-5). I am attaching the requirement, which is in Spanish and for the moment I have not been able to translate it for your better understanding. In addition, please, I need to know the country of origin, the business name of the company or business name; to be able to coordinate possible time variations

Finally, if you have any concerns or questions in order to expedite the hiring, as it is an urgent need, please contact me.

Sincerely,

Juan Carlos Ancajima Sánchez
